

All That Dance March Newsletter 2022

March Dance Focus is "Respect"

What does Respect look like at All That Dance?

- Respect is a positive feeling or action shown towards someone or something.
- At ATD, we want our dancers to be respectful to their teachers and dance staff, to their classmates and to the studio.
- Respect is important to our dancer's success because kindness goes a long way.. We want our dancers to show respect at the studio and in their everyday lives.

- All dancers should have the same style & color of tights and we ask that they be the ones we sell at the studio.
